Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

System of National Accounts, Income and Expenditure Accounts Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 951-3797) or to the Statistics Canada reference centre in:

| St. John's | (772-4073) | Winnipeg | (983-4020) |

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Système de comptabilité nationale, Division des comptes des revenus et dépenses,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-3797) ou au centre de consultation de Statistique Canada à:

| St. John's | (772-4073) | Winnipeg | (983-4020) |

The System of National Accounts

In Canada, the National Accounts have been developed since the close of the Second World War in a series of publications relating to their constituent parts. These have now reached a stage of evolution where they can be termed a "System of National Accounts". For purposes of identification, all publications (containing tables of statistics, descriptions of conceptual frameworks and descriptions of sources and methods) which make up this System carry the term "System of National Accounts" as a general title.

The System of National Accounts in Canada consists of several parts. The annual and quarterly Income and Expenditure Accounts (included with Catalogue Nos. carrying the prefix 13) were, historically speaking, the first set of statistics to be referred to with the title "National Accounts" (National Accounts, Income and Expenditure). The Balance of International Payments data (Catalogue Nos. with prefix 67) are also part of the System of National Accounts and they, in fact, pre-date the Income and Expenditure Accounts.

Greatly expanded structural detail on industries and on goods and services is portrayed in the Input-Output Tables of the System (Catalogue Nos. with prefix 15). The Catalogue Nos. carrying the prefix 15 also provide measures of the contribution of each industry to total Gross Domestic Product at factor cost as well as Productivity Measures.

Both the Input-Output tables and the estimates of Gross Domestic Product by Industry use the establishment as the primary unit of industrial production. Measures of financial transactions are provided by the Financial Flow Accounts (Catalogue Nos. with prefix 13). Types of lenders and financial instruments are the primary detail in these statistics and the legal entity is the main unit of classification of transactors. Balance sheets of outstanding assets and liabilities are published annually.

The System of National Accounts provides an overall conceptually integrated framework in which the various parts can be considered as interrelated subsystems. At present, direct comparisons amongst those parts which use the establishment as the basic unit and those which use the legal entity can be carried out only at highly aggregated levels of data. However, Statistics Canada is continuing research on enterprise-company-establishment relationships; it may eventually be feasible to reclassify the data which are on one basis (say the establishment basis) to correspond to the units employed on another (the company or the enterprise basis).

In its broad outline, the Canadian System of National Accounts bears a close relationship to the international standard as described in the United Nations publication: A System of National Accounts (Studies in Methods, Series F, No. 2 Rev. 3, Statistical Office, Department of Economic and Social Affairs, United Nations, New York, 1968).

Le système de comptabilité nationale

Au Canada, les comptes nationaux ont fait l'objet depuis la fin de la Seconde Guerre mondiale de toute une série de publications portant sur leurs éléments constitutifs. Ils ont connu une telle évolution qu'on peut maintenant les qualifier de "Système de comptabilité nationale". Aux fins d'identification, toutes les publications qui font partie du système (elles contiennent des tableaux statistiques, la description du cadre théorique et l'explication des sources et des méthodes) portent le titre général de "Système de comptabilité nationale".

Le système de comptabilité nationale du Canada se divise en plusieurs catégories de comptes. Les comptes annuels et trimestriels des revenus et dépenses (paraissant dans les publications dont le numéro de catalogue commence par 13) ont constitué le premier ensemble de statistiques à être connu sous le titre de "Comptes nationaux" (Comptes nationaux, revenus et dépenses). Les données sur la balance canadienne des paiements internationaux (numéro de catalogue commençant par 67) font également partie du système de comptabilité nationale; elles ont même existé avant les comptes des revenus et dépenses.

Une nomenclature beaucoup plus détaillée d'industries et de biens et services figure dans les tableaux d'entrées-sorties du système (numéro de catalogue commençant par 15). Les publications dont le numéro de catalogue commence par 15 comprennent aussi les mesures de l'apport de chaque branche d'activité au total du produit intérieur brut au coût des facteurs ainsi que les mesures de productivité.

L'établissement est l'unité primaire de production industrielle tant dans les tableaux d'entrées-sorties que dans les estimations du produit intérieur brut par activité économique. Les comptes de flux financiers (publications dont le numéro de catalogue commence par 13) mesurent les opérations financières. Les catégories de prêteurs et d'instruments financiers forment les éléments de base de ces statistiques et la personne morale est le point de départ du classement des agents économiques. Les comptes du bilan des actifs et passifs en circulation sont disponibles annuellement.

Le système de comptabilité nationale constitue un ensemble conceptuellement intégré dans lequel les diverses catégories de comptes peuvent être considérées comme des sous-systèmes étroitement liés entre eux. Au stade actuel de développement, on ne peut faire de comparaison directe entre les éléments basés sur l'établissement et ceux qui sont basés sur l'entité juridique que lorsque les données sont groupées dans des catégories très générales. Toutefois, Statistique Canada poursuit ses recherches sur les relations entre l'entreprise, la société et l'établissement. Il sera peut-être possible un jour de reclasser les données établies sur une certaine base (l'établissement par exemple) de manière à les faire correspondre aux données établies sur une autre base (société ou entreprise).

Dans ses grandes lignes, le système de comptabilité nationale du Canada suit de très près la norme internationale exposée dans la publication des Nations Unies intitulée *Système de comptabilité nationale* (Études méthodologiques, série F, nº 2, rév. 3, Bureau de statistique, Département des affaires économiques et sociales, Nations Unies, New York, 1970).

Notice to users:

The Income and Expenditure Accounts Division disseminates data in a variety of forms such as facsimile, special computer tabulations and standard printouts. MS-DOS formatted microcomputer diskettes containing data from all of the division's current publications are available to subscribers.

Diskettes for this publication

The statistics in this publication, covering the period 1947-1986, are available on diskette, as an optional supplement for subscribers. The price for this supplement is \$50.

Historical publications

The following publications form part of the income and expenditure accounts documentation.

13-213S Provincial Economic Accounts, Historical

| | Issue, 1961-1986. |
|--------|---|
| 13-531 | National Income and Expenditure Accounts, Annual Estimates, 1926-1986. |
| 13-533 | National Income and Expenditure Accounts, Quarterly Estimates, 1947-1986. |

The documentation of the income and expenditure accounts will be complete with the release of the following publication at a later date:

13-549E National Income and Expenditure Accounts, Sources and Methods.

These volumes will supersede the previous documentation, published in the mid-1970s.

This publication was prepared under the direction of:

- Philip Smith, Director, Income and Expenditure Accounts Division
- Douglas Clancy, Chief, Investment Income and Consumer Expenditure
- Michel Pascal, Head, Government, Labour and Unincorporated Business
- Karen Wilson, Head, Capital Expenditure and Trade
- Gylliane Gervais, Acting Head, Provincial Accounts
- Nona Park, Head, Automation and Production
- Joel Diena, Head, Research and Development Projects and Analysis

Avis aux utilisateurs:

La Division des comptes des revenus et dépenses diffuse des données sous diverses formes, telles que des fac-similés et des totalisations habituelles et spéciales sur imprimé d'ordinateur. Les acquéreurs des publications peuvent obtenir des disquettes pour micro-ordinateur en format MS-DOS contenant les données de toutes les publications courantes de la division.

Les disquettes de cette publication

Les statistiques de cette publication, portant sur la période de 1947 à 1986, sont offertes sur disquette aux acquéreurs à titre facultatif. Le prix de ce supplément est de \$50.

Publications historiques

Les publications suivantes font partie de la documentation des comptes des revenus et dépenses.

| 13-213S | Comptes économiques provinciaux, édition historique, 1961-1986. |
|---------|---|

Introduction

This volume provides a comprehensive record of the quarterly National Income and Expenditure Accounts for the period 1947 to 1986 inclusive. It incorporates the results of a major historical statistical revision from 1947, which were released in July 1986. In addition, the normal annual revisions to the accounts released in June 1987 and June 1988 are also incorporated.

This historical publication is a companion volume to catalogue 13-531, National Income and Expenditure Accounts, Annual estimates, 1926-1986, which provides more detailed breakdowns, at an annual level, over the period from 1926. The estimates in these two volumes, 13-531 and 13-533, are fully consistent with the one exception that further statistical revisions, first released in June 1988, apply to the quarterly estimates from 1984 to 1986. The corresponding revisions to the annual estimates can be found in the periodical National Income and Expenditure Accounts, Annual Estimates, 1976-1987, catalogue 13-201.

At periodic intervals, major statistical revisions must be carried out in the System of National Accounts to incorporate basic new data and to include significant improvements of the information system. In Canada such revisions are generally done every ten years. Since the major revision in 1972 and limited revisions in 1977 and 1983, the results of the 1983 annual retail trade survey and the 1982 Family Expenditure Survey have become available. The necessity of incorporating the new information presented the opportunity to make improvements in methodology, to eliminate statistical breaks resulting from the more limited revisions, to extend tabular detail and to improve measures of many Changes in definition, presentation and methodology have also been made to provide better linkage with other parts of the Canadian System of National Accounts and to further integrate the statistical estimates. As well, the estimates in constant prices and the implicit price indexes have been rebased to the year 1981. No conceptual changes have been made in this revision.

Presentational Changes

The major change in the presentation of the revised Income and Expenditure Accounts has been the adoption of Gross Domestic Product as the central aggregate in the main tables. In the previously published statistics a consolidated Gross Domestic Product account was provided as a central part of the

Introduction

Ce volume présente un ensemble complet des comptes nationaux trimestriels des revenus et dépenses pour la période s'échelonnant de 1947 à 1986 inclusivement. Il contient les résultats d'une importante révision historique des statistiques depuis 1947, diffusés en juillet 1986. Les estimations comprennent aussi les révisions annuelles régulières des comptes parus en juin 1987 et en juin 1988.

Les données historiques de cette publication complètent celles des Comptes nationaux des revenus et dépenses, estimations annuelles, 1926-1986 (no 13-531 au catalogue), qui présente plus de détails au niveau annuel pour la période débutant en 1926. Les données des publications 13-531 et 13-533 sont cohérentes dans leur ensemble à l'exception des dernières révisions apportées en juin 1988 aux données trimestrielles de 1984 à 1986. La publication Comptes nationaux des revenus et dépenses, estimations annuelles, 1976-1987, (no 13-201 au catalogue) contient les données annuelles révisées correspondantes.

À intervalles réguliers, le système de comptabilité nationale doit faire l'objet de révisions importantes afin d'y introduire de nouvelles données de base et de prendre en compte les améliorations majeures apportées au système d'information statistique. Au Canada, des révisions de cette envergure ont habituellement lieu tous les dix ans. Depuis la dernière grande révision en 1972 et les révisions de portée limitée survenues en 1977 et 1983, les résultats de l'enquête annuelle de 1983 sur le commerce de détail sont devenus disponibles, ainsi que ceux de l'enquête de 1982 sur les dépenses des familles. L'obligation de tenir compte de ces nouvelles données fournissait l'occasion de revoir les méthodes, d'éliminer les solutions de continuité introduites lors des révisions de portée limitée, de présenter des tableaux plus détaillés et d'améliorer le calcul de bon nombre de Ces changements dans les définitions, la rubriques. présentation et les méthodes ont également pour objet de faciliter le rapprochement avec les autres parties constituantes du système canadien de comptabilité nationale et d'assurer une plus grande intégration des estimations statistiques. Parallèlement, l'année de base des estimations en prix constants et des indices implicites de prix a été changée à 1981. Les concepts de la comptabilité nationale n'ont pas été modifiés lors de cette révision.

Changements dans la présentation

L'adoption du produit intérieur brut en tant qu'agrégat fondamental dans les tableaux principaux représente le changement le plus important dans la présentation révisée des comptes des revenus et dépenses. Dans les tableaux publiés jusqu'à maintenant figurait un compte consolidé du produit intérieur brut qui constituait l'élément central des

sector analysis, but the emphasis remained on Gross National Product. The switch to Gross Domestic Product as the main aggregate for all tables has been made for several reasons.

The foremost reason is that with GDP, the user now has an aggregate analytically more meaningful in terms of economic developments taking place in the country. The domestic basis measures production taking place within the country, an aggregate that it is often assumed GNP represents. In fact, GNP measures income received (from production) by resident factors of production and is calculated by excluding interest and other types of investment income paid abroad and by including similar income flows received from abroad. In a country like Canada where foreign investment has played an important role in economic development, and hence with large investment income outflows, GNP does not provide the most appropriate measure of output for analysis of production, employment and productivity.

The adoption of GDP also provides a main aggregate to which linkages from the Income and Expenditure Accounts with other parts of the System of National Accounts can be more easily accommodated and demonstrated on an on-going basis. For example, the provincial economic accounts are produced on a domestic basis; provincial totals will now be additive to the national total. Links with the monthly industrial product estimates and the annual Input-Output tables are now greatly facilitated with the use of a common basis of measurement. Further, the use of GDP as the main aggregate accords more closely to international practice and the presentation recommended in the United Nations System of National Accounts.

comptes par secteur, mais l'accent était mis davantage sur le produit national brut. Plusieurs raisons expliquent l'adoption du produit intérieur brut (PIB) en tant qu'agrégat fondamental dans tous les tableaux.

En tout premier lieu, avec le PIB, l'utilisateur dispose d'un agrégat plus pertinent lorsqu'il s'agit d'analyser l'évolution de la situation économique au pays. Le produit intérieur mesure la production qui prend naissance à l'intérieur du pays, ce que l'on confond souvent avec le PNB. En réalité, le PNB mesure les revenus de la production reçus par les facteurs de production résidents et est calculé en excluant les intérêts et autres revenus de placements versés à l'étranger et en y ajoutant les revenus équivalents reçus de l'étranger. Dans un pays comme le Canada où l'investissement étranger a largement contribué au développement économique, engendrant de ce fait des sorties importantes de revenus de placements, le PNB ne représente pas la mesure du produit la plus appropriée à l'analyse de la production, de l'emploi et de la productivité.

L'adoption du PIB fournit aussi un agrégat fondamental à partir duquel il est plus facile d'établir et d'effectuer des rapprochements avec les autres parties du système de comptabilité nationale de façon continue. À titre d'exemple, les comptes économiques provinciaux mesurent le produit intérieur; la somme des provinces sera maintenant égale au total national. Le recours à une base de mesure commune facilitera grandement aussi les rapprochements avec les estimations mensuelles du produit industriel et les tableaux annuels d'entrées-sorties. Enfin, l'adoption du PIB en tant qu'agrégat fondamental est davantage conforme à la pratique internationale et à la présentation préconisée dans le système de comptabilité nationale élaboré par les Nations Unies.

Footnotes

Table 1

- Includes military pay and allowances. For detail, see Table 6.
- 2. Excludes profits of government business enterprises.
- Includes profits (net of losses) of government business enterprises and other government investment income.
- 4. Includes value of physical change in farm inventories and accrued earnings of farm operators arising out of the operations of the Canadian Wheat Board. Includes also an arbitrary smoothing of crop production and standard seasonal adjustments for withdrawals of grain from farm stock and for the change in farm-held livestock and other inventories. Because of the arbitrary element, too precise an interpretation should not be given the seasonally adjusted figures of value of physical change on farm inventories and therefore the accrued net income of farm operators.
- 5. Includes net income of independent professional practitioners and imputed net rent on owner-occupied dwellings.
- 6. See footnote 4, Table 2.

Table 2

- 1. Includes defence expenditures. For amounts, see line 10, Table 10.
- Includes outlays on new durable assets such as buildings and highway construction by government, other than government business enterprises. Excludes defence construction and equipment which are defined as current expenditure.
- Comprises capital expenditures by private and government business enterprises, private noncommercial institutions and outlays on new residential construction by individuals. Capital expenditure is defined to include all transfer costs on the sales and purchases of existing fixed assets.
- 4. The book value of inventories is deflated to remove the effect of price changes and the derived "physical" change is then valued at average prices of the current period to obtain the value of physical change. The difference between this value of physical change and the change in book value is called the inventory valuation adjustment (see line 6, Table 1).

Notes

Tableau 1

- 1. Y compris solde et indemnités militaires. Détails au tableau 6.
- 2. Sans les bénéfices des entreprises publiques.
- 3. Y compris les bénéfices (pertes déduites) des entreprises publiques ainsi que les autres revenus de placements des administrations.
- 4. Y compris la valeur de la variation matérielle des stocks agricoles et les revenus comptables des exploitants agricoles résultant des activités de la Commission canadienne du blé. Comprend aussi un lissage arbitraire de la production culturale et des ajustements saisonniers normalisés visant les prélèvements de céréales sur les stocks agricoles et la variation des cheptels et des autres stocks détenus dans les fermes. En raison de cet élément arbitraire, on ne devrait pas donner une interprétation trop rigoureuse aux chiffres désaisonnalisés de la valeur de la variation des stocks agricoles et du revenu comptable net des exploitants agricoles.
- 5. Y compris le revenu net des personnes exerçant une profession pour propre compte et les loyers nets imputés des logements occupés par leur propriétaire.
- Voir note 4, tableau 2.

Tableau 2

- 1. Y compris les dépenses militaires présentées à la ligne 10, tableau 10.
- 2. Y compris les dépenses en biens durables neufs (comme les immeubles et les routes) des administrations publiques autres que les entreprises publiques. Ne comprend pas les installations et le matériel militaires, considérés comme dépenses courantes.
- 3. Comprend les dépenses d'investissement des entreprises privées, des entreprises publiques et des institutions non commerciales privées, ainsi que les dépenses de construction résidentielle neuve des particuliers. Les dépenses d'investissement comprennent tous les frais de mutation relatifs à la vente et à l'achat d'immobilisations existantes.
- 4. La valeur comptable des stocks est dégonflée de façon à supprimer l'effet des variations de prix. La variation "matérielle" ainsi obtenue est ensuite évaluée aux prix moyens de la période courante, ce qui permet d'obtenir la valeur de la variation matérielle. La différence entre cette valeur de la variation matérielle et la variation de la valeur comptable est appelée ajustement de la valeur des stocks (voir ligne 6, tableau 1).

Table 2 - Concluded

5. See footnote 4, Table 1.

Table 3

- 1. The period 1947-1987 was deflated in five time segments, 1947-1956, 1956-1961, 1961-1971, 1971-1981, and 1981 to date with price indexes based on 1949, 1957, 1961, 1971 and 1981 respectively. The five series were then linked arithmetically at the major group, component and total gross domestic product levels to a 1981 base. Differences between the sum of directly rebased components and their aggregates are shown as adjusting entries e.g. lines 9, 16 and 20.
- 2. See footnote 2, Table 2.
- See footnote 3. Table 2.

Table 4

- 1. Prior to the historical revision in 1986, Gross National Product rather than Gross Domestic Product was the central aggregate in the Income and Expenditure Accounts. With the adoption of Gross Domestic Product, corporation profits before taxes and interest and miscellaneous investment income include interest and dividends paid to non-residents and exclude interest and dividends received from non-residents while exports of services exclude investment income received from non-residents and imports of services exclude investment income paid to non-residents.
- 2. See also Table 20.
- Gross National Product at 1981 prices can be calculated from 1981 on by deflating net investment income from non-residents with the overall Gross Domestic Product implicit price index and adding the result to Gross Domestic Product at 1981 prices.

Table 5

- 1. This item is the adjustment to take account of the accrued earnings of farm operators arising out of the operations of the Canadian Wheat Board. See also footnote 1, Table 6.
- 2. A positive figure indicates a source of savings made available to the economy by non-residents.
- 3. For a breakdown between government and business, see Table 16.

Tableau 2 - fin

Voir note 4, tableau 1.

Tableau 3

- 1. La période 1947-1987 a été dégonflée en 5 parties: 1947-1956, 1956-1961, 1961-1971, 1971-1981, et de 1981 à aujourd'hui, les indices de prix étant basés sur 1949, 1957, 1961, 1971 et 1981 respectivement. Les cinq séries ont ensuite été raccordées arithmétiquement au niveau des principaux groupes, des composantes et du produit intérieur brut total selon la base de 1981. Les différences entre la somme des composantes directement rebasées et leurs agrégats sont prises en compte par voie d'inscription d'ajustement, par exemple les lignes 9, 16 et 20
- 2. Voir note 2. tableau 2.
- 3. Voir note 3, tableau 2.

Tableau 4

- 1. Depuis la révision historique de 1986, le produit intérieur brut remplace le produit national brut, en tant qu'agrégat fondamental des comptes des revenus et dépenses. Avec l'adoption du produit intérieur brut, les bénéfices des sociétés avant impôts et les intérêts et revenus divers de placements comprennent les intérêts et dividendes payés aux non-résidents et excluent les intérêts et dividendes reçus des non-résidents alors que les exportations de services excluent les importations de services excluent les revenus de placements reçus des revenus de placements payés aux non-résidents.
- 2. Voir également le tableau 20.
- 3. Le produit national brut aux prix de 1981 peut être calculé, de 1981 à aujourd'hui, en dégonflant les revenus nets de placements des non-résidents avec l'indice implicite de prix du produit intérieur brut et en ajoutant ce résultat au produit intérieur brut aux prix de 1981.

Tableau 5

- 1. Cette rubrique vise l'ajustement apporté pour tenir compte des revenus comptables des exploitants agricoles résultant des activités de la Commission canadienne du blé. Voir également note 1, tableau 6.
- 2. Un chiffre positif indique une source d'épargne mise à la disposition de l'économie par les non-résidents.
- 3. Pour une ventilation entre le secteur des administrations publiques et celui des entreprises, voir le tableau 16.

Table 6

- 1. This item differs from line 4, Table 1 by excluding the adjustment which has been made to take account of the accrued net earnings arising out of the operations of the Canadian Wheat Board ("adjustment on grain transactions").
- 2. Includes all interest on the public debt paid by government to persons.
- Charitable and other contributions and bad debt write-offs.
- This item is the transfer portion of interest on consumer debt.

Table 9

- Includes capital consumption allowances as shown in line 16.
- Includes net purchase of existing non-financial assets.

Table 10

- Includes capital consumption allowances as shown in line 20.
- From 1951, interest on the federal public debt is on an accrual basis; prior to 1951, it is on a "due date" basis.
- 3. See footnote 2, Table 9.

Table 11

- 1. For the years 1950-1956, the data for corporate and government business enterprises refer to provincial income tax collections; from 1957 on, they refer to tax liabilities.
- Includes capital consumption allowances as shown in line 19.
- 3. See footnote 2, Table 9.

Table 12

1. The quarterly figures of real property taxes unadjusted and seasonally adjusted are obtained by dividing annual totals by four since real property taxes accrue uniformly throughout the taxation year. Because in recent years changes in real property tax rates have been generally upward, this treatment gives rise to a fictitious seasonal between the fourth and first quarters in the seasonally adjusted taxes series.

Tableau 6

- 1. Cette rubrique diffère de la ligne 4, tableau 1, en ce qu'elle exclut l'ajustement visant le revenu comptable net au titre des activités de la Commission canadienne du blé ("ajustement relatif aux transactions de céréales").
- 2. Y compris tous les intérêts sur la dette publique payés par les administrations publiques aux particuliers.
- Dons de charité, autres contributions et amortissement des mauvaises créances.
- 4. Il s'agit de la partie "transferts" des intérêts sur la dette de consommation.

Tableau 9

- Comprennent les provisions pour consommation de capital figurant à la ligne 16.
- 2. Y compris l'achat net d'actifs existants non financiers.

Tableau 10

- 1. Comprennent les provisions pour consommation de capital figurant à la ligne 20.
- 2. A partir de 1951, le service de la dette publique fédérale est sur une base d'exercice; pour les années antérieures à 1951, il a été estimé sur une base de "date d'échéance".
- 3. Voir note 2, tableau 9.

Tableau 11

- Pour les années 1950-1956, les chiffres pour les sociétés et entreprises publiques visent la somme des impôts sur les revenus perçus par les provinces; à partir de 1957, ils représentent les impôts dus.
- 2. Comprennent les provisions pour consommation de capital figurant à la ligne 19.
- 3. Voir note 2, tableau 9.

Tableau 12

1. Les estimations trimestrielles des impôts fonciers, à la fois non désaisonnalisées et désaisonnalisées, sont obtenues en divisant les chiffres annuels par quatre, étant donné que ces impôts s'accumulent de façon uniforme tout au long de l'année d'imposition. Comme les changements des taux ont en général relevé le niveau des impôts fonciers au cours des dernières années, il en est résulté une saisonnalité fictive entre les quatrième et premier trimestres dans les séries désaisonnalisées.

Table 12 - Concluded

- Includes capital consumption allowances as shown in line 15.
- 3. See footnote 2. Table 9.

Table 13

- Includes capital consumption allowances as shown in line 10.
- 2. See footnote 2. Table 9.

Table 14

1. See footnote 2. Table 9.

Table 15

 Includes undistributed earnings accruing to nonresidents.

Table 16

- 1. See footnote 2, Table 2.
- 2. See footnote 3, Table 2.

Table 17

- 1. See footnote 2, Table 2.
- See footnote 3, Table 2.

Table 18

- Up to the fourth quarter of 1983, the value of change in non-farm business inventories is seasonally adjusted at the aggregate level. For the period beginning with the first quarter of 1984, the aggregate value of change is the sum of the seasonally adjusted components.
- Includes an arbitrary smoothing of crop production and standard seasonal adjustments for withdrawals of grain from farm stock and for the change in farm-held livestock and other inventories. Because of the arbitrary element, too precise an interpretation should not be given to the seasonally adjusted figures.

Table 19

- See footnote 1, Table 18.
- 2. See footnote 2, Table 18.

Tableau 12 - fin

- 2. Comprennent les provisions pour consommation de capital figurant à la ligne 15.
- 3. Voir note 2, tableau 9.

Tableau 13

- 1. Comprennent les provisions pour consommation de capital figurant à la ligne 10.
- 2. Voir note 2, tableau 9.

Tableau 14

1. Voir note 2, tableau 9.

Tableau 15

 Y compris les bénéfices non répartis allant aux nonrésidents.

Tableau 16

- 1. Voir note 2, tableau 2.
- 2. Voir note 3, tableau 2.

Tableau 17

- 1. Voir note 2. tableau 2.
- 2. Voir note 3, tableau 2.

Tableau 18

- Jusqu'au quatrième trimestre de 1983, la valeur de la variation matérielle des stocks des entreprises non agricoles est désaisonnalisée au niveau global; à partir de 1984, elle est la résultante de la somme des composantes désaisonalisées individuellement.
- 2. Comprend un lissage arbitraire de la production culturale et des ajustements saisonniers normalisés visant les prélèvements de céréales sur les stocks agricoles et la variation des cheptels et des autres stocks détenus dans les fermes. En raison de cet élément arbitraire, on ne devrait pas donner une interprétation trop rigoureuse aux chiffres désaisonnalisés.

Tableau 19

- 1. Voir note 1, tableau 18.
- 2. Voir note 2, tableau 18.

Table 20

- Includes withholding taxes, pension receipts and personal remittances from abroad.
- Includes withholding taxes paid to foreign governments, personal remittances, government official contributions and government pension payments.

Table 21

1. The implicit price indexes, derived by dividing the value figures in current dollars by the constant dollar figures, are currently weighted price indexes. They reflect not only pure price changes, but also changing expenditure patterns within and between major groups. Quarter-to-quarter comparisons based on the seasonally adjusted data are less subject to the problem of shifting weights than are similar comparisons based on data unadjusted for seasonality and therefore may be used as indicators of price change.

Table 22

1 Fixed-weighted or base-weighted indexes use the pattern of expenditure in the base periods (1971 weights for the period 1971-1980 and 1981 weights from 1981 on) to aggregate the detailed price indexes in each period. The indexes therefore represent price change among periods using a constant set of weights: the price movement of the fixed-weighted indexes is not affected by compositional changes in expenditures among components and periods as can be the case with the implicit indexes. The weights used have been as follows:

Tableau 20

- Comprennent les retenues fiscales, les pensions reçues et les versements des particuliers recus de l'étranger.
- 2. Comprennent les retenues fiscales versées aux gouvernements étrangers, les versements des particuliers, les contributions officielles des administrations publiques et les pensions versées par celles-ci.

Tableau 21

1. Les indices implicites de prix, qui s'obtiennent en divisant les valeurs en dollars courants par les valeurs en dollars constants, sont des indices de prix à pondération courante. Ils rendent compte non seulement des variations de prix, mais aussi de l'évolution des régimes de dépenses dans les principaux groupes et entre ces derniers. Les changements trimestriels des indices implicites fondés sur des données désaisonnalisées sont moins touchés par les variations de poids et peuvent donc être utilisés pour évaluer les variations de prix.

Tableau 22

1. Les indices à pondération fixe ou à pondération d'année de base utilisent pour chacune des périodes la composition des dépenses de la période de référence (poids de 1971 pour la période 1971-1980 et poids de 1981 depuis 1981) pour l'agrégation des indices de prix individuels. Les indices mesurent la variation de prix entre des périodes où la pondération est maintenue constante; les variations de prix des indices à pondération fixe ne sont pas affectées par les changements dans la composition des dépenses entre les périodes et les composantes comme dans le cas des indices implicites. Les poids suivants ont été utilisés:

| | 1971 | 1981 | |
|--|-------|-------|---|
| Personal expenditure | 58.6 | 55.3 | Dépenses personnelles |
| Durable goods | 8.2 | 7.9 | Biens durables |
| Semi-durable goods | 7.7 | 6.2 | Biens semi-durables |
| Non-durable goods | 18.4 | 16.8 | Biens non durables |
| Services | 24.3 | 24.4 | Services |
| Government current expenditure | | | Dépenses publiques courantes en |
| on goods and services | 19.5 | 19.4 | biens et services |
| Government investment in fixed capital | 4.0 | 2.6 | Investissement des administrations en capital fixe |
| Non-residential construction | 3.5 | 2.2 | Construction non résidentielle |
| Machinery and equipment | 0.5 | 0.4 | Machines et matériel |
| Business investment in fixed capital | 17.7 | 21.6 | Investissement des entreprises en capital fixe |
| Residential construction | 4.8 | 5.8 | Construction résidentielle |
| Non-residential construction | 6.3 | 7.7 | Construction non résidentielle |
| Machinery and equipment | 6.6 | 8.1 | Machines et matériel |
| Exports of goods and services | 23.5 | 27.3 | Exportations de biens et services |
| Imports of goods and services | -23.3 | -26.2 | Importations de biens et services |
| GDP, excluding the value of physical change in inventories | 100 0 | 100.0 | PIB, sans la valeur de la variation materielle des stocks |
| Final domestic demand | 99 8 | 98.9 | Demande interieure finale |

Table 23

Chain indexes measure price change between two consecutive periods, using as weights the composition of expenditure in the first of the two periods. In this table, quarterly indexes are calculated with quarterly weights, and linked quarterly, while annual indexes are calculated with annual weights and are linked annually. Chain indexes contrast with the fixed-weighted indexes in Table 22, using weights of the base periods and the implicit indexes in Table 21, which use weights of the current periods. Percentage changes in the chain indexes reflect price change unaffected by compositional changes between the consecutive periods, that is, between years for the annual series or from quarter to quarter for the quarterly series.

Tableau 23

1. Les indices-chaînes mesurent la variation de prix entre deux périodes successives, utilisant comme pondération la composition des dépenses de la première des deux périodes. Dans ce tableau, les indices trimestriels sont calculés à partir d'une pondération trimestrielle et raccordés trimestriellement alors que les indices annuels sont calculés à partir d'une pondération annuelle et raccordés annuellement. Les indices-chaînes se distinguent des indices à pondération fixe du tableau 22, dont la pondération est celle de la période de base, et des indices implicites du tableau 21, à pondération courante. Les variations en pourcentage des indices-chaînes traduisent les variations de prix sans l'effet des changements dans la composition des dépenses entre périodes successives, d'une année ou d'un trimestre à l'autre, selon qu'il s'agit de séries annuelles ou trimestrielles.

Every week

The numbers that make decisions

The data that highlight national economic trends

Infomat is a digest of the most important statistics of the week. It is invaluable for business planners, policy makers and members of the media who take an interest in the Canadian economy.

Articles cite the most recent economic and social data available, describe current trends and point out significant changes. Regular features include a complete list of publications released by Statistics Canada during the reference week, a table of key economic indicators and a list of upcoming data releases. The text is concise, easy-to-read and complemented by tables and charts.

Infomat, Catalogue No. 11-002E (weekly), is available for \$2.00 per copy/\$100.00 annually (in Canada); \$3.00 per copy/\$150.00 annually (elsewhere),

Toutes les semaines

Les chiffres qui font les décisions

Les données illustrant les tendances de l'économie canadienne

Infomat est un résumé des statistiques les plus importantes de la semaine. C'est un outil d'une valeur inestimable pour les planificateurs du monde des affaires, les responsables de l'élaboration des politiques et les médias d'information s'intéressant à l'économie canadienne.

Les articles contenus dans ce bulletin citent les plus récentes données économiques et sociales disponibles, décrivent les tendances actuelles et soulignent les changements les plus significatifs. On y retrouve des chroniques régulières, notamment une liste complète des nouvelles publications parues à Statistique Canada au cours de la semaine de référence, un tableau des principaux indicateurs économiques, ainsi qu'une liste des données à paraître. Le texte est concis, facile à lire et illustré de tableaux et de graphiques.

Infomat, n° 11-002F au catalogue (hebdomadaire), se vend \$2.00 l'exemplaire ou \$100.00 pour un abonnement annuel au Canada; \$3.00 l'exemplaire ou \$150.00 pour un abonnement annuel à l'étranger

THE CANADA YEARBOOK L'ANNUAIRE DU CANADA

A JOURNEY OF 1000 MILES BEGINS WITH A SINGLE STEP

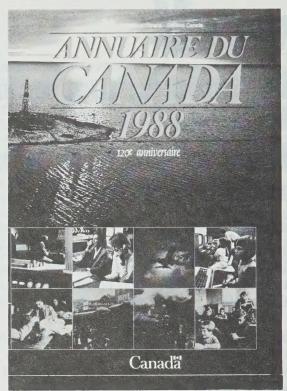

The Canada Year Book recorded Canada's first steps in 1867. It's still the only book that gives you the most complete, upto-date facts on every aspect of Canada's growth as a nation.

Physical setting * Demography * Health * Education * Employment and incomes * Social security * Housing and construction * Forests, fish and furs * Agriculture * Mines and minerals * Energy * Science and technology * Transportation * Communications * Cultural activities and leisure * Manufacturing * Merchandising and services * Banking, finance and insurance * Judicial System * External relations, trade and defence * Government * Government finance * Review of the economy

Sold in Bookstores and also available by calling Statistics Canada toll-free at 1-800-267-6677 or by completing the order coupon included in this publication.

\$49.95 plus shipping and handling (\$54 inclusive in Canada, \$70 other countries); Catalogue number

Information can also be obtained by contacting your Regional Reference Centre.

TOUT LE PAYS, D'UNE COUVERTURE À L'AUTRE

Déjà au siècle dernier, les premiers pas de la nation étaient consignés dans l'Annuaire du Canada . Aujourd'hui, l'Annuaire du Canada témoigne toujours avec précision et exhaustivité des multiples facettes de l'évolution du pays.

Physiographie * Démographie * Santé * Éducation * Emploi et revenu * Sécurité sociale * Logement et construction * Pêches et fourrures * Agriculture * Mines et minéraux * Énergie * Sciences et technologie * Transports * Communications * Activités culturelles et loisirs * Industries manufacturières * Commerce et services * Banques, finances et assurances * Gouvernement * Système judiciaire * Relations extérieures, commerce et défense * Finances publiques * Revue de l'économie

Disponible en librairie, en téléphonant à Statistique Canada au numéro sans frais 1-800-267-6677 ou en remplissant le bon de commande qui fiqure dans la présente publication.

\$40.95 frais de port et de manutention en sus (\$54 au Canada, .\$70 à l'étranger); numéro 11-402F au répertoire.

UN INVESTISSEMENT SÛR

Investissez dans la source d'information statistique la plus complète qui soit sur le marché canadien de la consommation. Le Recueil statistique des études de marché, 1987-1988 vous donne plus de données sur:

LES CONSOMMATEURS

y compris les revenus, le niveau de scolarité et les dépenses familiales;

y compris l'investissement, les petites entreprises et le marché du travail;

LES AFFAIRES

y compris le commerce de détail, la finance, l'immobilier et l'automobile; **59 VILLES**

y compris le logement, la main-d'oeuvre et le profil des consommateurs;

LE COMMERCE INTERNATIONAL

y compris le commerce des services entre le Canada et les États-Unis et les échanges entre le Canada et ses principaux partenaires commerciaux;

LA SITUATION À VENIR

c'est-à-dire des projections des tendances relatives aux dépenses des consommateurs, aux revenus, aux prix, etc.

LE RECUEIL STATISTIQUE DES ÉTUDES DE MARCHÉ, 1987-1988 VOUS EN DONNE PLUS POUR VOTRE ARGENT.

Le Recueil statistique des études de marché possède maintenant une couverture rigide. Il comprend plus de 700 pages de tableaux statistiques, 59 graphiques, des notes, des définitions

1986 CENSUS PROFILES

LES PROFILS DU RECENSEMENT DE 1986

YOUR TICKET YOUR ANY TO ANY COMMUNITY COMMUNITY IN CANADA

VOTRE LAISSEZ-PASSER LAISSEZ-PASSER POUR MIEUX POUR AÎTRE CONNAÎTRE CONNAÎTRE LES CANADIENS

The 1986 Profiles will put you on the fast track to any Canadian community you want to study . . .

You're looking for a fast introduction to the social and demographic realities of a city, a town, a municipality or an entire province. And you don't have the time to wade through piles of statistics.

Focus in on the area of your choice with a CENSUS PRO-FILE. Each PROFILE features more than 120 items of information on the area that interests you... from population counts, to the living arrangements of its elderly.

Choose a PROFILE on any one of

- 6009 Census Sub divisions (municipalities)
- 266 Census Divisions (counties)
- 295 Federal Electoral Districts
- 25 Census Metropolitan Areas
- 114 Census Agglomerations
- a variety of urban/rural breakdowns
- and, more.

With 52 publications in this series, we can fast track you to any destination you want.

For more information, call us at 1-800-267-6677 and request the Census brochure (which includes ordering information), or write us at:

Publications Sales Statistics Canada Ottawa, Ontario K1A OT6 Le Canada et ses régions sont à votre portée grâce aux Profils du recensement de 1986.

Vous désirez connaître le portrait socio-démographique d'une province, d'une ville ou d'une municipalité en particulier, mais la perspective d'avoir à vous battre avec des montagnes de statistiques vous effraie?

Balayez toute appréhension! Les Profils du recensement de 1986 vous épargneront temps et effort. Chaque Profil présente plus de 120 éléments différents d'information sur chacune des régions répertoriées. Des chiffres de population aux données sur les modes de vie de la population âgée, vous saurez tout.

Vous n'avez qu'à faire votre choix. Et quel choix! Les 52 publications de la série portent sur:

- 6,009 municipalités (subdivisions de recensement);
- 266 comtés (divisions de recensement);

Canada

- 295 circonscriptions électorales fédérales;
 - 25 régions métropolitaines de recensement;
 - 114 agglomérations de recensement;
 - diverses régions urbaines et rurales;
 - et plus encore.
